TO: REGIONAL CENTER EXECUTIVE DIRECTORS

SUBJECT: STATE OF EMERGENCY IN MONO COUNTY

As a result of a series of rainstorms, Governor Edmund G. Brown Jr., added Mono County to the counties included in his March 7, 2017, State of Emergency.

Due to the extreme drought conditions throughout the state, the storm systems beginning on February 1, 2017, caused dangerous flash flooding, erosion, substantial mud and debris flows that damaged roads and highways and added extreme peril to the safety of persons and property.

The circumstances of these storms' damage, and because of their magnitude are beyond the control of the services, personnel, equipment, and facilities of any single local government and require the combined forces of a mutual aid region or regions to combat.

Since there is a declared State of Emergency, the Department of Developmental Services (Department) is authorizing, pursuant to Title 17, California Code of Regulations section 54326 (a)(11), regional centers to pay vendors for absences that are the direct result of the rainstorms in the county listed above.

The applicable regulation section reads as follows:

[All vendors shall...] Not bill for consumer absences for nonresidential services. The Department shall authorize payment for absences which are the direct result of situations and/or occurrences for which a State of Emergency has been declared by the Governor. If payment for absences due to a State of Emergency is authorized by the Department, the vendor shall bill only for absences in excess of the average number of absences experienced by the vendor during the 12-month period prior to the month in which the disaster occurred.
