

FY 2022-23 CHILD FIND PLAN UPDATE

Child find is defined in 34 Code of Federal Regulations (CFB). Section 303 302.
Child find is intended to locate and identify, children who are experiencing, or are at risk of experiencing developmental delays of 25% or more, are considered at risk or have an established risk condition as defined in the California Early Intervention Services Act. Please describe how the Regional Center Intends to conduct outreach to identify such children. In addition, the Child Find system is required to target outreach to underserved populations. These underserved populations are defined in the federal regulations as Native American Infants and toddlers residing on tribal lands, infants and toddlers with disabilities who are experiencing homelessness, infants and toddler in foster care.

Step 1: Review the percent of children served data for your regional center (Indicator 5 – Birth to age one, Indicator 6 – Birth to age three). Based on a review of the data for your regional center, which age group will your regional center focus on: (select age group in the cell to the right)	Birth to age three	Link to Early Start Local performance data

In the table below

Step 2: Identify primary referral sources for all counties in the regional center catchment area and if the agency will be your focus for Fiscal Year 2022-2023.

Step 3: Identify the agency type, if the agency has outreach to underserved populations, the type of underserved population and the type of activities that will be planned.

	Please select your RC	Eastern Los Angeles Regional Center		
	If yes, please submit the policies and procedures.			
toddlers, and other underserved infants and toddlers and their families in the catchment area? (select yes or no in the cell to the right)				
	ies			

Please select your RC		Eastern Los Angeles Region	nal Center						
Step 2		St		ер 3		Please indicate the activities planned with each agency
